The team will help with some of the finishing touches in order to expedite the launching of this new building. Projects may include painting, furnishing rooms, and landscaping. The efforts of this team will be a tremendous blessing to this ministry.</p>

The priority is to provide practical support and tools to Syrian refugees and the Kurdish people so they can find better employment or have the opportunity to launch their own small business which will help them find financial stability and an opportunity to move out of a life of poverty. The team will also have the opportunity to visit a few refugee camps as well.</p>
<p><b>KENYA- SM</b> Street Children <b>FULL</b></p>	<p><b>April 6-14</b></p>	<p>Our church is championing a phenomenal ministry in Kenya which rescues children from the streets of Kenya and reintegrates them back into loving families. We are partnered with Agape Children’s Ministry who have successfully reintegrated over 2,000 street children back to family and we desire to replicate this model in various cities throughout Kenya. Currently we are working in the city of Kitale and seeking a team to come alongside the ministry there, to encourage the workers, help cast vision to local pastors, love on children both living at the center and on the streets in Kitale, as well as learn about sustainable development projects which help support the communities receiving these children. This trip will be a life changer and a once in a lifetime opportunity! (Children 12 years and older welcome with a parent.)</p>
<p><b>ETHIOPIA</b> Pastor’s Training</p>	<p><b>March 23 - April 13</b></p>	<p>Do you love teaching the word of God? Want to encourage others in the ministry? We’re looking for 1 or 2 people to join our team training pastors and leaders in Ethiopia.</p>
<p><b>NORTH AFRICA</b> Medical Mission</p>	<p><b>June 16-29</b></p>	<p>Join this exciting team as they travel to North Africa providing medical care for children with disabilities. The team will come alongside our OCC ministry partners who run centers to reach out and help those children with disabilities. Our partners there would greatly welcome anyone in the medical profession that might have a heart for these children and be able to assess their medical needs and offer any support. There is also plenty of opportunity to equip and train caregivers as well. Not only will the team be able to provide medical assistance, but will also be able to encourage workers as we visit the various ministries around the country. This will be an excellent opportunity for exposure to Muslim ministry and you will surely walk away with a greater vision for the world around us!</p>

Part of our trip will serve to visit key biblical places like the Church of the Holy Sepulcher and Golgotha. However, part of our trip will also be focused around learning and serving among the "living stones"—churches and families of Christians who have been in the region for centuries, enduring and ministering during various political, cultural, and sociological changes. This trip is designed for young adults and professionals (around 18-35 in age) who are looking to expand their worldview in terms of the Christian Church and its context in the Holy Land.</p>

In early 2020, our partners plan to open a permanent health clinic, but in the meantime could use a team to help catalyze this vision by offering general health screenings &amp; check-ups in several locations throughout the city. We are seeking doctors, pediatricians, nurses, physical therapists, dermatologists, chiropractors, optometrists, and dentists just to name a few. Let us know your expertise and I am sure we can put you to work!</p>

Our team will work together with our partners, IAM ministries, in Chile to help with the construction of a church in a small community called Melipeuco. In this community, there is a growing local church led by a Chilean pastor who has a deep passion to reach out to meet the needs of the nearby indigenous Mapuche communities. The church meets regularly in a rented facility, but their biggest need right now is to have an actual structure of their own to meet in. In addition, we will participate in various outreaches to build relationships with the beautiful people in this community.</p>
